Pediatrics

CLINICAL FOCUS

Dr. Güngörmüş provides well-child follow-up for infants and children, which gives families a regular opportunity to review a child's progress and raise questions about everyday concerns. A significant part of her work involves problems that are frequent in the first months of life, including infant colic, infant gas pain and neonatal...

Her expertise extends to the diagnosis and treatment of childhood infections. This includes upper respiratory tract infections in children as well as the childhood illnesses measles, rubella and chickenpox.

Childhood constipation Infant colic Infant gas pain
Upper respiratory tract infections in children Neonatal jaundice
