Psychiatry & Psychology

### CLINICAL FOCUS

A significant part of Eda Kalaycıoğlu's practice is dedicated to obsessive compulsive disorder, a condition in which intrusive thoughts and repetitive behaviors can take up considerable time and interfere with daily life.

She additionally works with individuals experiencing depression, including low mood, loss of interest and changes in energy, sleep or concentration, and with those living with post-traumatic stress disorder following a distressing or life-threatening event.

Obsessive Compulsive Disorder

Panic Disorder

Depression

Post-Traumatic Stress Disorder

Social Phobia and Specific Phobias

### INTERNATIONAL PATIENTS

International patients are supported by the Acibadem international patient team, which coordinates the collection of prior reports before the visit, including previous psychological or psychiatric assessments, discharge summaries, laboratory results and details of any current or past medication, and arranges appointments and the hospital...
