Rehabilitation

CLINICAL FOCUS

The main focus of Eda Özgür's practice is the treatment of pelvic pain. This is an area that calls for careful assessment, clear explanation and rehabilitation adapted to the individual. Rather than concentrating on symptoms alone, she considers the patient's overall function and quality of life when proposing a plan, and she reviews progress over the course of treatment so that the program can be adjusted where needed.

Her wider expertise covers physiotherapy and physical medicine and rehabilitation. Within the Physical Medicine and Rehabilitation unit, her rehabilitation work is coordinated with the physicians responsible for diagnosis and medical treatment, and she adapts each program to the goals set for the patient.

INTERNATIONAL PATIENTS

Eda Özgür consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, arranges appointments and organizes the...
