CLINICAL FOCUS

A substantial part of Dr. Tokuçcu's work concerns structural and valvular heart disease. She evaluates and manages patients with heart valve diseases, including aortic stenosis, mitral valve regurgitation and rheumatic heart disease, as well as atrial septal defect.

Dr. Tokuçcu's clinical interests further include arrhythmias, in particular atrial fibrillation, and the assessment of patients who may require a pacemaker. In coronary and vascular disease, she addresses atherosclerosis and coronary artery disease, with interests in angiography, percutaneous coronary intervention and chronic total...
