Acibadem Taksim Hospital, İstanbul

DEPARTMENT
Internal Medicine

CLINICAL FOCUS

A central part of Dr. Murrja's practice is the diagnosis and medical treatment of thyroid disease. He also evaluates and treats patients with type 1 diabetes, type 2 diabetes and prediabetes, and he provides diagnosis and treatment of metabolic disease more broadly.

His areas of expertise further include obesity, anemia and fatty liver disease, as well as clinical nutrition and wellness. Many of the conditions he treats are long-standing and interrelated, and chronic disease management is therefore an integral part of his work.

INTERNATIONAL PATIENTS

Dr. Murrja consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as laboratory and pathology results, ultrasound or other imaging reports, operative notes and discharge summaries, and arranges appointments and the...
