CLINICAL FOCUS

Dr. Eskitaşçioğlu's practice covers anesthesiology and intensive care treatment. In the intensive care setting, she is involved in the assessment and ongoing management of critically ill patients, including support of breathing and circulation, monitoring of organ function and adjustment of treatment as a patient's condition changes.

She also has expertise in advanced life support, which refers to the structured management of patients in cardiac or respiratory arrest and other life-threatening emergencies, and in palliative care, where the aim is to relieve symptoms such as pain and breathlessness and to support patients and their families when a condition cannot be...
