CLINICAL FOCUS

Dr. Özveren's practice centers on anesthesia care for patients undergoing surgical and other procedures. This work involves assessing the patient before the procedure, planning the anesthetic approach in coordination with the surgical team, monitoring the patient during the procedure and supporting recovery afterward.

Her work also includes reanimation and intensive care, which involve the support and monitoring of patients whose vital functions require close attention, including in the period following surgery or during acute illness. Her membership in the Turkish Intensive Care Association reflects this area of her practice.
