CLINICAL FOCUS

Dr. Uçar's field is clinical microbiology within the wider discipline of laboratory medicine. Clinical microbiology is the laboratory specialty concerned with detecting and identifying microorganisms associated with infection and with the testing that helps treating physicians assess and manage infectious conditions.

Her expertise also covers diagnostic testing and laboratory management. Her earlier position as Laboratory Supervisor at İstanbul Beykoz State Hospital reflects experience in overseeing laboratory processes, and her later work as a Clinical Microbiology Specialist at Analiz Laboratory adds to this background.
