DEPARTMENT
Radiology

CLINICAL FOCUS

One of Dr. Ayan's areas of interest is the imaging of breast diseases. In this field, radiology contributes to the evaluation of breast findings by providing images and reports that other physicians use when planning further assessment or care.

Dr. Ayan also has a professional interest in multidetector CT colonography, which is also referred to as virtual colonoscopy. This is a CT-based imaging examination of the large bowel in which the acquired images are reviewed by the radiologist and described in a written report.

Multidetector CT colonography

Virtual colonoscopy

INTERNATIONAL PATIENTS

Dr. Ayan speaks Turkish and English, and interpreters can be arranged when needed. The Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the hospital visit.
