CLINICAL FOCUS

Dr. Gezer's clinical work concerns the medical care of hospitalized patients during their stay. This includes the initial assessment of patients on admission, regular monitoring of their clinical condition and the day-to-day medical decisions that arise while a patient is in the hospital.

For international patients, this means coordinated inpatient medical care, clear communication about the hospital-based treatment plan and ongoing clinical follow-up for as long as they remain in the hospital. Dr. Gezer's role is to help ensure that a patient's condition is reviewed on a regular basis, that changes are noted and addressed, and that the patient and, where appropriate, accompanying family members understand...

INTERNATIONAL PATIENTS

Dr. Gezer consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a hospital visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, for example MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments...
