Bee stings · Trauma care

HOSPITAL

Acibadem Bursa Hospital

DEPARTMENT

Emergency Service

CLINICAL FOCUS

Dr. Aydın's work centers on the emergency assessment of patients whose condition requires prompt evaluation. One of his stated areas of interest is bee stings. In the emergency setting, this involves examining the sting site, assessing the patient's general condition, identifying signs that may point to a more widespread reaction, and deciding on the appropriate level of observation or treatment.

His second area of focus is trauma care. This includes the initial assessment of injured patients, prioritizing problems that may threaten life or limb, arranging imaging where it is needed, and coordinating with other hospital specialties when further care is required.

Trauma care

INTERNATIONAL PATIENTS

Dr. Aydın consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. For patients coming from abroad, the international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and...
