DEPARTMENT
General Surgery

CLINICAL FOCUS

A central part of Dr. Günay's practice is the assessment and treatment of haemorrhoids and other anorectal diseases. He evaluates the patient's symptoms and examination findings and discusses the treatment options that are appropriate for the individual case, which may include non-surgical or surgical approaches depending on the...

He also performs endocrine surgery and treats umbilical hernia and inguinal hernia, including laparoscopic repair techniques described in his publications. In addition, he manages patients with cholecystitis, where the decision about gallbladder surgery is made after reviewing the clinical picture, imaging and any previous treatment.
