CLINICAL FOCUS

A significant part of Dr. Karabay's practice is andrology and male reproductive health, including the assessment and management of male infertility. He also evaluates and treats patients with prostate diseases, from benign prostate conditions to prostate cancer, and sees patients with symptoms related to bladder health, including urinary...

In urologic oncology, his work covers tumors of the prostate, bladder and kidney, including bladder cancer. He performs laparoscopic and robotic surgery and treats kidney stones with minimally invasive stone surgery.
