Gynecology & Obstetrics

CLINICAL FOCUS

In gynecology, Dr. Özgü sees women with menopause-related concerns, menstrual irregularities and infertility. He provides endometriosis treatment and infertility assessment and care. His work also includes HPV infection and genital wart treatment, as well as the evaluation and management of cervical cancer.

In obstetrics, Dr. Özgü offers pregnancy follow-up and monitors conditions such as preeclampsia. He supports different approaches to childbirth, including epidural childbirth, water birth and cesarean delivery, and discusses delivery planning with each patient according to her medical situation.
