Reanimation

CLINICAL FOCUS

Dr. Şentürk's clinical focus is on anesthesia, reanimation and intensive care. As an anesthesiologist, he is involved in the care of patients undergoing procedures that require anesthesia, working alongside the surgical and hospital care team to support patients before, during and after these procedures.

His work in reanimation and intensive care concerns patients who need close monitoring and organ support in a critical care setting. Intensive care is delivered as part of a multidisciplinary team, and the specific approach depends on each patient's clinical situation. Dr.
