CLINICAL FOCUS

A central part of Dr. Cesur's clinical work concerns bipolar disorder, including the assessment and management of comorbid anxiety and of suicidal behavior in patients with this diagnosis. These themes are also reflected in his published research, which has examined the relationship between impulsivity, comorbid anxiety and...

He also evaluates and treats delusional disorder and geriatric psychiatric disorders, and he carries out forensic psychiatric evaluation. His experience as a Psychiatry Specialist at Istanbul Forensic Medicine Institute and his published work comparing delusional disorder patients with and without a criminal history relate to this area.
