Urology

CLINICAL FOCUS

A significant part of Dr. Kaya's practice is uro-oncology. He evaluates and treats patients with kidney cancer, bladder cancer, prostate cancer and testicular cancer. Where surgery is indicated, his practice includes robotic surgery, and the choice of approach is discussed with each patient in light of the diagnosis and the patient's individual situation. Dr.

In andrology, Dr. Kaya sees men with concerns related to male infertility and sexual dysfunction, and he treats diseases of the urethra. Diagnostic procedures in his practice include cystoscopy, an endoscopic examination of the bladder and urethra that may be used in the assessment of hematuria, bladder tumors and urethral conditions.

INTERNATIONAL PATIENTS

Dr. Kaya consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the international patient team coordinates the collection of prior reports and imaging, for example MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the hospital...
