DEPARTMENT
Radiation Oncology

CLINICAL FOCUS

Dr. Özyar evaluates and plans radiotherapy for a range of cancers. A significant part of his work involves head and neck cancers, an area reflected in his publications on nasopharyngeal carcinoma.

Radiation treatment is planned individually. The choice of technique, dose and schedule depends on the type and stage of the cancer, the patient's general condition and any previous surgery, chemotherapy or radiotherapy.

Radiotherapy may be used alone or alongside other treatments, and Dr.
