CLINICAL FOCUS

A large part of Dr. Atilla's work involves the assessment and treatment of mood and anxiety conditions. This includes major depression, bipolar disorder, anxiety disorders, panic disorder and obsessive-compulsive disorder. He also evaluates and treats patients with atypical psychosis.

Dr. Atilla also treats eating disorders, sleep disorders and insomnia. Within his subspecialty, he provides sexual dysfunction treatment, approaching these concerns from a psychiatric perspective as part of the patient's overall mental health care.

INTERNATIONAL PATIENTS

Dr. Atilla consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports, such as previous psychiatric or psychological evaluations, laboratory results, discharge summaries and records of earlier treatments, and arranges appointments and the...
