DEPARTMENT
Urology

CLINICAL FOCUS

A central part of Dr. Yavuz's practice is the assessment and management of urinary incontinence and wider bladder health. Involuntary loss of urine, urgency and changes in voiding pattern can have a range of underlying causes, and the approach depends on the type of incontinence, the patient's history and the findings of the clinical...

His second area of focus is the diagnosis and treatment of prostate diseases. Prostate conditions may present with urinary symptoms, and evaluation typically combines the patient's history with a clinical examination and a review of existing test results. Dr.
