CLINICAL FOCUS

The area of expertise listed for Dr. Yılmaz is interventional cardiology. Interventional cardiology is the part of cardiology that deals with catheter-based, minimally invasive diagnostic and treatment procedures for the heart and its blood vessels, as an alternative or complement to medical treatment and open surgery.

Whether an interventional approach is suitable depends on the individual patient's diagnosis, general health and previous treatments. Dr. Yılmaz reviews each case on its own merits, and any recommendation is made only after the available clinical information has been assessed. Patients are informed about the potential benefits and limitations of the options that are considered so that they can take part in the decision.

Interventional cardiology

INTERNATIONAL PATIENTS

Dr. Yılmaz speaks Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and organizes the...
