(Kadikoy) Hospital, ...

DEPARTMENT

Anesthesiology &
Reanimation

CLINICAL FOCUS

Dr. Kaya's practice is directed toward the care of critically ill patients. Intensive care treatment involves continuous monitoring and organ-supportive therapy for patients whose condition requires close observation and rapid adjustment of treatment.

Alongside acute care, Dr. Kaya's areas of expertise include palliative care, which focuses on relieving symptoms and maintaining comfort for patients with serious or advanced illness, and pain management. Information on the approaches available at Acibadem can be found on the Interventional Pain Management page.
