Hospital, İstanbul

DEPARTMENT
Cardiovascular Surgery

CLINICAL FOCUS

Dr. Erek performs robotic cardiac surgery, including robotic bypass surgery, for selected patients. His areas of expertise in adult cardiovascular surgery include aortic aneurysm, aortic valve stenosis, other heart valve diseases, major vessel diseases, and cardiomyopathies.

In pediatric and congenital cardiac surgery, he treats congenital heart disease, including ventricular septal defect (VSD) and atrial septal defect (ASD). Whether a robotic, conventional, or other surgical approach is appropriate depends on the individual patient's condition, anatomy, and previous treatment, and is determined after...
