CLINICAL FOCUS

Dr. Özasan's clinical work centers on the evaluation and medical treatment of solid tumors in adults. His areas of expertise include lung cancer and other thoracic cancers, as well as colorectal cancer, covering both colon cancer and rectal cancer. He also treats patients with breast cancer and with stomach cancer.

Within genitourinary oncology, his expertise covers bladder cancer and prostate cancer. In gynecological oncology, he sees patients with cervical cancer and ovarian cancer. In each case, the medical treatment plan is based on the individual diagnosis, disease stage and previous treatments, and is discussed with the patient after a review...
