DEPARTMENT
Cardiology Department

CLINICAL FOCUS

Dr. Güntürk assesses and manages a range of cardiovascular conditions in adult patients. His areas of expertise include coronary artery disease, heart failure, arrhythmias including atrial fibrillation, and hypotension.

Cardiopulmonary rehabilitation is a specific area of interest. For patients recovering from a cardiac event, living with heart failure or managing chronic coronary or valve disease, Dr. Güntürk considers whether a structured rehabilitation program is appropriate alongside medical or interventional treatment.

Aortic stenosis

Arrhythmias

Atrial septal defect (ASD)

Atrial fibrillation

Hypotension

INTERNATIONAL PATIENTS

Dr. Güntürk speaks Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, for example echocardiography or other ultrasound reports, CT or MRI reports, ECG and laboratory results,...
