Hospital, İstanbul

DEPARTMENT
Radiation Oncology

CLINICAL FOCUS

Dr. Tekçe's clinical work is in radiotherapy as part of cancer care. One area of his practice is the radiation treatment of brain tumors, which relates to his membership in the Türk Nöroonkoloji Association and to his published work on patients with brain metastases treated with whole brain radiotherapy or with a local boost.

More broadly, Dr. Tekçe provides radiotherapy for patients with a range of cancers. Radiotherapy planning depends on the type and location of the tumor, any prior surgery or systemic treatment, and the patient's overall condition.
