CLINICAL FOCUS

Dr. Kumbay assesses and manages patients with ischemic heart disease, including those who may require angiography to evaluate the coronary arteries. He also cares for patients with hyperlipidemia and with hypertension, as well as patients with hypotension.

A further part of his practice concerns rhythm disorders, in particular atrial fibrillation and other arrhythmias, and structural valve disease such as aortic valve stenosis. The suitability of any diagnostic test or treatment depends on the individual patient's history, examination findings and existing results, and is decided after...
