Gynecology & Obstetrics

CLINICAL FOCUS

A central part of Dr. Ertaş's practice is the assessment and management of urinary incontinence and other bladder health concerns, as well as pelvic organ prolapse. These conditions are evaluated in the context of each patient's history and symptoms, and the options discussed depend on the findings of the clinical examination. Dr.

Her gynecological work includes menstrual irregularities, endometriosis, polycystic ovary syndrome, ectopic pregnancy and sexually transmitted diseases. Women with menstrual irregularities or suspected polycystic ovary syndrome are evaluated with attention to both the presenting symptoms and longer-term health considerations. In obstetrics, Dr.

Menstrual irregularities

INTERNATIONAL PATIENTS

Dr. Ertaş speaks Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as ultrasound, MRI or CT reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the hospital visit.
