CLINICAL FOCUS

Dr. Ora's areas of expertise are emergency care, urgent medical assessment and the initial treatment of acute conditions. In the emergency setting, assessment typically begins with a focused history of the presenting complaint, a clinical examination and an evaluation of the urgency of the situation.

Because emergency medicine deals with a wide range of presentations rather than a single organ system, the approach is deliberately broad. Dr. Ora's work involves assessing patients of varying ages and with varying complaints, prioritizing according to clinical need and working alongside other departments of the hospital when a patient requires specialist input, admission or ongoing treatment beyond the initial emergency...

INTERNATIONAL PATIENTS

Dr. Ora consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. For international patients, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and...
