DEPARTMENT  
Cardiology Department

## CLINICAL FOCUS

Dr. Tipi evaluates and manages a range of heart and vascular conditions. His areas of expertise include coronary artery disease and atherosclerosis, heart valve diseases, heart murmurs, and heart failure. He also addresses cardiovascular risk factors, including hypertension and obesity, as part of overall cardiac care.

A further focus of his work is cardiopulmonary rehabilitation, which supports patients with heart and lung conditions through supervised, structured programs. The suitability of any assessment or treatment plan depends on the individual patient's clinical findings, and options are discussed with the patient after a review of the relevant...
