CLINICAL FOCUS

As a radiologist, Dr. Valiaghayev is involved in the acquisition and interpretation of diagnostic images and in the preparation of radiology reports that support the diagnostic and treatment decisions of referring physicians. Radiology is a supporting discipline that works closely with other departments, and imaging findings are typically discussed together with the treating clinician so that they can be placed in the context...

His work takes place within the multidisciplinary services of the hospital, where imaging is one part of a wider assessment. For international patients who wish to read more about imaging services described on this site, general information is available on Coronary CT Angiography and PET-CT Imaging.

INTERNATIONAL PATIENTS

Dr. Valiaghayev communicates in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, including MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments...
