HOSPITAL

Acibadem Taksim Hospital,
İstanbul

DEPARTMENT

Inpatient Clinic Physicians

CLINICAL FOCUS

Dr. Batur's areas of expertise are inpatient care, patient assessment, clinical monitoring, care coordination and emergency medicine. As an inpatient clinic physician, he contributes to the clinical evaluation of hospitalized patients, follows their condition over the course of the stay and helps ensure that the different parts of the care plan are aligned.

His earlier work in emergency departments informs his approach to patient assessment, where timely recognition of changes in a patient's status and a structured clinical evaluation are central. In the inpatient setting, the emphasis is on careful monitoring and steady communication rather than on any single procedure.

Emergency medicine

INTERNATIONAL PATIENTS

Dr. Batur speaks Turkish and English, and interpreters can be arranged for patients who prefer another language. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the hospital...
