DEPARTMENT
Orthopedics & Joint Center

CLINICAL FOCUS

A substantial part of Dr. Dikici's practice concerns the hip and knee. He evaluates patients with degenerative and other joint diseases and, when indicated, performs hip replacement and knee replacement surgery, including robotic-assisted procedures where appropriate for the individual case.

His areas of expertise further include spine diseases and spinal deformity surgery, orthopedic oncology and the management of bone tumors, and trauma surgery for fractures and related injuries.

Spine Diseases

Spinal Deformity Surgery

Joint Diseases
