CLINICAL FOCUS

Dr. Dane's clinical work centers on the medical oncology management of solid tumors. A large part of his practice involves gastrointestinal cancers, including colorectal cancer, stomach cancer, pancreatic cancer, liver cancer and biliary tract cancers.

In medical oncology, the choice of treatment depends on the type and stage of the tumor, the results of pathology and imaging, any previous therapy and the patient's general health. Dr. Dane reviews each case individually before discussing which options may be appropriate, and treatment planning may involve coordination with other...
