Anesthesiology &
Reanimation

CLINICAL FOCUS

Dr. Toraman's clinical practice centers on anesthesia for cardiovascular surgery, including cardiac, thoracic and vascular procedures. In this setting the anesthesiologist is responsible for assessing the patient before surgery, planning and delivering anesthesia, monitoring the heart, circulation and breathing during the operation, and...

His published work reflects these interests. He has co-authored papers on the treatment of excessive bleeding after cardiac surgery, the use of tranexamic acid before coronary bypass surgery, the tolerance of anemia in non-transfused coronary surgery patients, preoperative levosimendan in cardiac surgery patients with severe left...
