Acibadem Altunizade Hospital, İstanbul

DEPARTMENT

Physical Medicine & Rehabilitation

CLINICAL FOCUS

Dr. Arslan's areas of expertise are physical medicine and rehabilitation and respiratory treatment. Physical medicine and rehabilitation is the field concerned with the assessment and rehabilitation of patients whose physical function or mobility has been affected by illness or injury, with the aim of maintaining or improving day-to-day function. Within this field, Dr.

Because the available information describes her expertise in these general terms rather than as a list of specific procedures, whether a particular case falls within her practice can only be judged after her review of the individual patient's documents. Patients whose needs lie outside these areas may be directed to a colleague in another department after that review.

INTERNATIONAL PATIENTS

Dr. Arslan speaks Turkish and English, and interpreters can be arranged for patients who need support in another language. For patients traveling from abroad, the hospital's international patient team coordinates the collection of prior reports and imaging, arranges appointments and organizes the hospital visit, so that the relevant documents are available before the patient is seen.
