İstanbul

DEPARTMENT  
Anesthesiology &  
Reanimation

## CLINICAL FOCUS

Dr. Gösterişli's clinical work centers on the care of critically ill patients. In the intensive care setting, this involves close monitoring of vital functions, support of breathing and circulation where needed, and coordination with the treating surgical and medical teams.

Her expertise in advanced life support relates to the structured management of patients whose heart or breathing has stopped or is at immediate risk, including airway management and resuscitation measures.
