CLINICAL FOCUS

Dr. Yarımçan's practice is laboratory based. In clinical laboratory medicine and diagnostic microbiology she is involved in the identification of bacteria and viruses from patient samples, work that supports treating physicians in confirming or ruling out infection and in guiding treatment decisions.

She also has specific experience with anaerobic bacteria, gained in the Anaerobic Bacteria Laboratory during her training, and with transfusion center laboratory services from her years as Head of the Laboratory and Transfusion Center at Fatsa Devlet Hospital.
