CLINICAL FOCUS

A substantial part of Dr. Bereket's practice involves the urinary tract and kidneys in children. She evaluates and treats recurrent urinary tract infections in children, pediatric kidney stone disease and hematuria (blood in the urine).

Beyond nephrology-related concerns, Dr. Bereket provides general pediatric care. This includes the diagnosis and treatment of pediatric infectious diseases, upper respiratory tract illnesses in children, infant colic and gas discomfort.

Recurrent urinary tract infections in children

Pediatric kidney stone disease

Infant colic

Diagnosis and treatment of pediatric infectious diseases
