CLINICAL FOCUS

Dr. Karababa's training and clinical posts have been in gynecology and obstetrics, and her current practice sits within the Gynecology & Obstetrics unit of the hospital. This is the field of medicine that deals with women's health, including the female reproductive system, pregnancy and childbirth. Within that field, the individual conditions and procedures that Dr.

Whether a particular concern, symptom or planned procedure falls within Dr. Karababa's practice is something that is clarified at the first consultation, once she has reviewed the patient's history and any existing reports. Where a case would be better served by another specialty or a multidisciplinary approach, this is discussed with the patient at that stage rather than assumed in advance.

INTERNATIONAL PATIENTS

Dr. Karababa speaks Turkish and English, and interpreters can be arranged for patients who prefer to communicate in another language. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, such as ultrasound, MRI, CT or X-ray reports, laboratory and pathology results, operative notes and discharge summaries, and arranges...
