Radiation Oncology

CLINICAL FOCUS

Dr. Sümer plans and delivers radiotherapy for several groups of cancers. She treats patients with head and neck cancers, brain tumors, breast cancer and gastrointestinal cancers. Her expertise also includes brachytherapy, a form of radiotherapy in which the radiation source is placed inside or close to the tumor.

Her published work consists mainly of case reports and retrospective reviews. Topics include bilateral breast cancer with simultaneous invasive lobular and invasive ductal carcinoma, radiation recall dermatitis, primary testicular lymphoma, rectal cancer during pregnancy, transitional cell carcinoma of the renal pelvis and ureter, vulvar...
