CLINICAL FOCUS

Dr. Shakibaie's areas of expertise are emergency care, urgent medical evaluation and initial emergency treatment. In practice, this means she sees patients whose symptoms have appeared suddenly or worsened quickly and who need a timely medical opinion.

Initial emergency treatment in this context refers to the first measures taken to address an urgent problem, such as managing symptoms, monitoring vital signs and beginning care that can later be continued by the relevant specialty team. Dr. Shakibaie works within the wider hospital structure, so patients who require further specialist input are handed over in a coordinated way.

INTERNATIONAL PATIENTS

Dr. Shakibaie speaks Turkish and English. For patients coming from abroad, the Acibadem international patient team coordinates the collection of prior reports and imaging, for example MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the hospital visit.
