HOSPITAL

Acibadem Altunizade
Hospital, İstanbul

DEPARTMENT

Pediatrics

CLINICAL FOCUS

Gizem Gürzoğlu's listed areas of expertise are pediatric rehabilitation, pediatric physiotherapy, rehabilitation assessment, individualised rehabilitation planning and family-centred rehabilitation care. In practice, this means that a child's rehabilitation typically begins with an assessment of current abilities and difficulties.

Family-centred rehabilitation care is a central part of her approach. Parents and caregivers are involved in understanding the goals of therapy and in the exercises or routines that may be continued at home between sessions. This allows the work done in the clinic to be supported in the child's daily environment.

INTERNATIONAL PATIENTS

Gizem Gürzoğlu speaks Turkish and English, and interpreters can be arranged for families who speak other languages. For international patients, the hospital's international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments...
