SPECIALTY

Orthopedic Surgery & Traumatology

FOCUS

Foot and Ankle Surgery · Hip and Knee...

HOSPITAL

Acibadem Taksim Hospital, İstanbul

DEPARTMENT

Orthopedics & Joint Center

CLINICAL FOCUS

Dr. Değer's areas of expertise include osteoarthritis and other degenerative joint conditions, for which options may range from non-surgical management to joint replacement. He performs hip replacement surgery and knee replacement surgery, and treats knee injuries such as cruciate ligament tears and meniscus tears.

In foot and ankle surgery and in shoulder and elbow surgery, Dr. Değer evaluates both injury-related and degenerative problems. He also has an interest in minimally invasive trauma surgery, in which fractures and related injuries are treated through smaller approaches where this is considered appropriate for the individual patient.

Osteoarthritis

Foot and ankle surgery
