DEPARTMENT
Emergency Service

CLINICAL FOCUS

Dr. Aksu's clinical work is centred on emergency care and emergency assessment. In the emergency department, this involves the initial evaluation of patients who present with acute symptoms or injuries, establishing priorities for care, and arranging further investigation or referral to other specialties where this is indicated.

Alongside emergency medicine, Dr. Aksu has worked for a number of years in dialysis care, first at Private Hisar Dialysis Center and later at Özel Erdem Hospital Diyaliz. He also has experience in workplace medicine, which is concerned with the health of employees in relation to their working environment.

INTERNATIONAL PATIENTS

Dr. Aksu consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. The Acibadem international patient team coordinates the collection of prior reports and imaging, such as MRI, CT, X-ray or ultrasound reports, laboratory and pathology results, operative notes and discharge summaries, and arranges appointments and the hospital visit.
