CLINICAL FOCUS

Dr. Seçkin's clinical work covers a broad range of general surgical conditions. In endocrine surgery he evaluates and operates on patients with surgical endocrine disorders. His oncologic surgery practice includes mastectomy.

A further area of his practice is the digestive system and the hepatopancreatobiliary organs. He manages pancreatic diseases and surgery, liver diseases and surgery, and diseases of the biliary tract, including cholecystitis. Digestive system surgery more generally also falls within his scope.

Endocrine surgery Mastectomy Oncologic surgery
Hemorrhoid treatment Anorectal disease treatment
