CLINICAL FOCUS

Dr. Katmer's work covers general oral and dental health. The Dental & Oral Health unit in which she practises addresses the condition of the teeth, gums and surrounding structures, and her consultations generally begin with a clinical examination and, where relevant, a review of existing dental imaging before any treatment is discussed.

Treatments described elsewhere on this site that fall within this area of dentistry include E-Max crowns, composite bonding, laminate veneers and full mouth reconstruction. Whether any of these options is suitable for a particular patient can only be assessed after examination, and the possible benefits and limitations of each approach are explained during the consultation so that the patient can take part in the decision.

INTERNATIONAL PATIENTS

Dr. Katmer speaks Turkish and English, so a patient travelling from abroad can be understood in either language, and interpreters can be arranged for other languages. Before a visit, the Acibadem international patient team coordinates the collection of prior reports and imaging, for example X-ray or CT reports, laboratory results and notes from earlier dental treatment, arranges...
