CLINICAL FOCUS

The core of Dr. Can's work is psychiatric evaluation. This involves listening to the patient's account of their symptoms and history, considering how these have developed over time, and reviewing any previous assessments or treatments. The aim of this process is to reach a clear understanding of the mental health condition involved and of the factors that may be contributing to it, so that decisions about care rest on a...

Following evaluation, Dr. Can focuses on individualized psychiatric care and treatment planning. Rather than applying a fixed protocol, she discusses the available options with the patient and works toward a plan that reflects their specific condition, circumstances and preferences.

Treatment planning

INTERNATIONAL PATIENTS

Dr. Can consults in Turkish and English, and interpreters can be arranged for patients who speak other languages. Before a visit, the international patient team coordinates the collection of prior reports and relevant documents, such as previous psychiatric or medical assessments, laboratory results, discharge summaries and details of current or past treatments, and arranges the...
