DEPARTMENT
Gastroenterology

CLINICAL FOCUS

A central part of Dr. Şişman's practice is the assessment and management of liver diseases, including fatty liver disease, together with pancreatic diseases and biliary tract diseases. He performs endoscopy and ERCP, an endoscopic technique used to evaluate and treat conditions of the bile ducts and pancreatic duct.

He also sees patients with inflammatory bowel diseases, namely Crohn's disease and ulcerative colitis, as well as Barrett's esophagus and stomach cancer. His areas of expertise further include obesity and a broad range of digestive system disorders.

Endoscopy Obesity Biliary tract diseases Stomach cancer

Endoscopic retrograde cholangiopancreatography (ERCP)

CONDITIONS TREATED

Obesity Primary biliary cholangitis Stomach cancer
Crohn's disease Ulcerative colitis
