Anesthesiology &
Reanimation

CLINICAL FOCUS

Dr. Uysal's clinical work centers on anesthesia for surgical procedures and on perioperative anesthesia care, which refers to the anesthetic management of a patient before, during and after an operation.

His practice also includes resuscitation, the recognition and management of acute, life-threatening deterioration in a patient's condition. As part of the Anesthesiology & Reanimation unit, he works alongside surgeons and other specialists so that anesthetic care is coordinated with the wider treatment plan.
